"I'll take a chance against loss by fire," it means that he doesn't like to think of what his financial position would be if his home store or other property should be burned without in-surance or under-insured. If he is in business he loses sight of the FACT that if it does not warrant him in carrying full insurance the sooner he quits the better for him, and his creditors, because practically all wise and suc-cessful business men do not carry the fire risk themselves, but are anxious to pay a corporation that is in that line to carry it for them.

That You saw Your BOY as he went up to register last June a year ago. A few months later he was called into the service. You went with him to York and saw him inducted into the Service. You were at the Southern depot and saw him leave for Camp Jackson. You went to see him there. Later he was sent to Camp Sevier. And again You went to see HIM. A few weeks more You saw him get aboard the troop train with his mates—Your Neighbor's Boys—You followed him to an Atlantic Port—You saw him march on board the great transport—Later you saw HIM when he reached the other side—You saw HIM reach camp in France and you saw Him put through a strenuous post graduate course of training—A few weeks more and you saw HIM going to the FRONT. You saw HIM as he faced the Huns—those brutes that have been outlawed by civilization—You saw HIM in the fighting line—HE STOOD TRUE—Oh, but YOU were thrilled at YOUR boy and You have been following along ever since—Praying to God that HE will measure UP and DO HIS PART and be an HONOR TO YOU and HE IS DOIN'G JUST THAT. \* It is truly a wonderful dream YOU have been having and YOU are thrilled by it—YOU are proud——BUT, possibly YOUR BOY HAS BREN DREAMING TOO—DAY DREAMING, possibly, when he was in full possession of all his mental factuities.
